## 10 & 18 Litre Cans AdBlue®

- Easy To Use!
- Easy To Handle!
- Easy To Store!

To ensure that operators do not run out of AdBlue® on the road, our 10 and 18 litre packs are the ideal emergency solution. The 10 and 18 litre facilitate a truck driving 600km and 1,000 km respectively. The cans are ergonomically designed and come with an integrated spout to enable spill-free filling. The cans are designed to be stackable.

Part No	Shelf Life	Storage	Volume
4303C (10)	Minimum 12 months	Cool Dry Conditions	10 litres
4303K (18)	Minimum 12 months	Cool Dry Conditions	18 litres
Filled Weight	Distribution		
11.5kg for 10 litre	60 x 10 litres to a pallet	Non-returnable	
20.5kg for 18 litre	60 x 18 litres to a pallet	Non-returnable

## 1,000 Litre IBC AdBlue®

- Ideal For Small To Medium Fleets!
- Quality Dispensing Equipment Available!
- Reusable!

1,000 litre IBCs (Intermediate Bulk Container) are the ideal system for small to medium fleets using approximately 25,000 litres of AdBlue® per annum. The IBC is a closed system with a robust Steel chassis and offers both top CDS and bottom gravity dispensing of AdBlue®. High-quality dispensing systems are available with a choice of 12, 24 and 240v electric pump sets, manual hand pumps or gravity hose kits.

Part No	Shelf Life	Storage	Volume
Dual Dispense 4303ID	Minimum 12 months	Cool Dry Conditions	1,000 litres
Filled Weight	Distribution		
1,146kg	1,000 litres IBC	Returnable (subject to condition)
