COTSWOLD CONNECT

Our monitoring service ensures a consistent supply, saving you the time and responsibility of physically checking the tank.

Our team will monitor your tank level on a daily basis, advising when a top up is required.

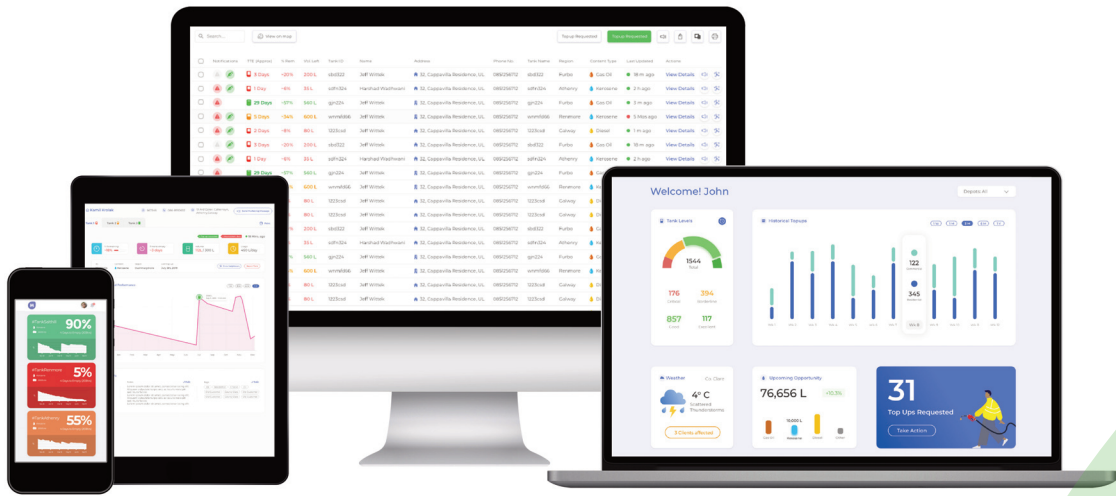

How it works

We will arrange an installation of the monitoring device to your tank and our team will monitor the level of your tank notifying you when it reaches a certain agreed level.

We aim to fill your tank at the most convenient time.

Benefits of a Cotswold Connect for Domestic Oil use:

- *No downtime as you will always have plenty of fuel*
- *Consistent usage reports in percentages*
- *You will be alerted when you are running low on fuel*

Run out of fuel? Guessing at how much heating oil you have left in your tank? Wondering when you should order and how much? **Cotswold Connect** really is the simplest, most reliable and hassle-free way to ensure that you always have plenty of heating oil in your tank. We remotely monitor your tank using the most up-to-date, cutting edge telemetric technology. We offer an accurate and effective way that takes away all these problems and many more by taking daily tank readings.

You can leave our friendly sales team to look after the readings and ordering for you. We offer access from your computer, laptop or mobile app for your phone, so you can check your fuel levels and request an order when you're running low. Call your local depot today and see how **Cotswold Connect** can help you keep on top of your tank.
